

# Fireweed Lane/LaTouche Street Upgrade Comment Form

May 9, 2005

**Proposal Project Description** – This Municipality of Anchorage project upgrades Fireweed Lane from Seward Highway east to Latouche Street and then south on Latouche Street to Northern Lights Boulevard. It will address roadway maintenance issues, repave the roadway, consider traffic calming measures, and create a more pedestrian oriented corridor.

**Project Schedule** – The project will be designed with construction scheduled during the summer of 2007.

**Project Walk-Through** – To start the project scoping effort, we will hold a project walk-through on Saturday, May 14. We will meet at 10 AM at the Bannister Drive/Fireweed Lane/Latouche Street intersection and walk the project limits. The goal is to review the current conditions and to take your suggestions about what should be considered as the project is developed. When the contract Notice-to-Proceed is sent to DOWL we will schedule public and agency scoping meetings where we will present additional project information and take your additional comments on project concerns and issues.

**Project Objectives** – What do you believe should be the project objectives?
